COLONOSCOPY PREPARATION INSTRUCTIONS

Please read this information as soon as you receive it!!

**If you have any questions about these instructions or to make a change to your appointment, Please call:
(314) 432-5900 (Office) Press Option 2
(314) 388-6519 (Exchange)**

Your procedure is scheduled for _____ at _____

Please arrive **1 hour prior** to your procedure. We work very hard to stay on schedule. We need this time to complete paperwork, place an IV, etc.

The St. Luke's GI/Endoscopy lab is located at 232 S. Woods Mill Road, Chesterfield, MO 63017. The GI/Endoscopy Lab is located on the first floor, Suite 130 of the East Medical Building.

From Hwy40/Interstate 64:

- ▶ Go north on Woods Mills Road (Hwy. 141) · mile to Conway Road.
- ▶ Turn right at the stoplight onto Conway Road. Turn left into the hospital east entrance.
- ▶ Turn left again into the east surface parking lot or East Garage (3 levels). There is direct access to the East Medical Building from Level 1 or 3. Complimentary valet parking is available and is highly encouraged. Valet parking begins at 7:30am.

If you cannot keep your scheduled appointment, please notify us at least **2 business days** before your scheduled time.

Please review the "special circumstances" section of this document carefully to see if you require special instructions or modifications.

BOWEL PREPARATION:

Necessary items:

- ▶ One 8.3 oz bottle of Miralax (Polyethylene glycol powder). This is available over the counter
- ▶ Four 5 mg. Dulcolax pills. Dulcolax is available over the counter. Please purchase the laxative formula not the stool softener.
- ▶ Two 32oz. bottles of Gatorade, any flavor.

Two days prior:

- ▶ Eat as you would normally, or eat less than normal. Overindulging on food will make it harder to get the colon cleaned out adequately.

The day prior to your procedure:

- ▶ Consume only clear liquids on this day. **No solid food!** Examples of clear liquids include: water, any kind of soda, Gatorade, coffee, Popsicles, tea, Jell-O, broth, bouillon, and fruit juices that you can see through (apple and grape are OK, orange and tomato are not). You may have all the clear liquids you desire throughout this day and evening. No alcohol allowed. Please note that if you consume red Jell-O, Gatorade or popsicles with your bowel prep that your stool may be red in color. This is nothing to be alarmed about.
- ▶ Mix half of the 8.3 oz bottle of Miralax in each 32 oz. bottle of Gatorade until dissolved and keep cold in the refrigerator.
- ▶ Begin bowel preparation between 12 and 4pm depending on whether you plan to work full day prior to the procedure. (Please note that starting the bowel preparation later in the day may lead to a more restless night because of ongoing bowel movements.)
- ▶ For those choosing to start the bowel preparation at **noon**:
 - take four 5 mg. Dulcolax pills with water and continue clear liquids.
 - at 12:30pm, start drinking the first bottle of Miralax/Gatorade solution. Drink 1 glass every 15-20 minutes until the first bottle is gone.
 - Between 3-4pm, begin drinking the second Miralax/Gatorade solution and finish all 32 oz.
- ▶ For those choosing to start the bowel preparation at **4pm**:
 - take the four 5 mg. Dulcolax pills with water and continue clear liquids
 - at 4:30 pm start drinking the first bottle of Miralax/Gatorade solution. Drink 1 glass every 15-20 minutes until the first bottle is gone
 - Between 7-8 pm, begin drinking the second Miralax/Gatorade solution and finish all 32 oz.
- ▶ **DO NOT CONSUME ANYTHING AFTER MIDNIGHT EXCEPT MEDICATIONS UNTIL AFTER YOUR PROCEDURE.**
- ▶ You may take your usual medications with sips of water **both the day before and as early as possible on the day of the procedure.**
- ▶ If your bottom is sore, try an ointment such as A&D ointment, Preparation H, or Vaseline to the anal area as needed.

The day of the procedure:

- ▶ **If your procedure is scheduled before 2:30 pm, do not consume anything after midnight, the day prior to your procedure.**
- ▶ **If your procedure is scheduled at or after 2:30pm, you may consume clear liquids only until 7 am** the morning of your procedure.
- ▶ Arrive at the GI/Endoscopy Lab at St. Luke's Hospital **1 hour prior** to your scheduled procedure time. Visit St. Luke's Hospital website at www.stlukes-stl.com for maps and directions.

- ▶ **You will need someone to drive you to and from the hospital AND wait in the waiting room until the procedure is done. The procedure can't be done unless you have a driver. You will be there for approximately 2 to 2-1/2 hours from the time you arrive.**
- ▶ We have enclosed a patient information form and a medication list. **Please fill these out at home and bring them with you to your appointment along with your insurance cards and drivers license.** If you have any questions, the nurse will go over it with you at the time of your appointment.
- ▶ All Female Patients: if you are between the ages of 12-49, you will be required to give a urine specimen unless you have had a Hysterectomy or Tubal Ligation.

SPECIAL INSTRUCTIONS:

Patients with an automatic implantable defibrillator and /or pacemaker: Please call us at least five (5) days before the procedure for instructions.

Coumadin (warfarin): Call your primary care doctor or cardiologist and ask if you can safely stop the Coumadin four (4) days before the procedure. If your doctor tells you that you cannot stop the Coumadin, then please call us immediately to make us aware of this. We will then discuss with you the various options available.

Iron: Stop iron four (4) days before the procedure. Iron can make preparation difficult and result in a poorly cleaned colon

Antibiotics for procedures: Recent publications from both the American Heart Association and American Society for Gastrointestinal Endoscopy state that antibiotics are not necessary for routine endoscopic procedures.

Insulin: Call your primary care doctor at least five (5) days before the procedure and ask for instructions.

Plavix: (clopidogrel) and aspirin: It is not necessary to stop Plavix and aspirin prior to your procedure.

Herbal Medications: It is best to stop any herbal remedies five (5) days before the procedure as many of them can thin the blood and increase the risk of bleeding during the procedure.

ADDITIONAL INFORMATION:

Approximately 3 business days prior to your procedure, you will be receiving an automated phone call from our Phone Tree system reminding you of your appointment. Please listen to this entire message and press the appropriate number for your response regarding your appointment. If you are not at home, Phone Tree will leave a message on your answering machine. Unless you want to cancel or reschedule your appointment, it is not necessary to call the office to confirm. We will assume you are keeping your scheduled appointment unless we hear from you.

You will also receive a call from St. Luke's GI/Endoscopy Lab a couple days prior to your appointment to go over your health history.

We also suggest that you contact your insurance to verify coverage for colonoscopy. Some insurance plans cover colonoscopy for colon cancer screening or routine/preventative care. Other plans only cover colonoscopy if you are having symptoms or they may say it's covered only if "medically necessary". There are

many different insurance companies and each individual plan is different. Please let the physician know if your plan covers colonoscopy for colon cancer screening so we can code it properly.

You may visit our website (www.gatewaygi.com) for more detailed information regarding the physician you will be seeing and other services offered.

PATIENT RIGHTS

Every patient has the right to be treated fairly, with respect and as an individual.

Patients are treated with respect, consideration, and dignity.

Patients are provided appropriate privacy.

Patient disclosures and records are treated confidentially, and except when required by law, patients are given the opportunity to approve or refuse of their release.

Patients are informed of their right to formulate an advanced directive, at the time the procedure is scheduled, and to appoint a designated representative to make healthcare decisions on their behalf to the extent permitted by law. This facility does not honor advance directives and the patient has the right to schedule their procedure at another facility.

Patients are provided, to the degree known, complete information concerning their diagnosis, treatment, and prognosis. When it is medically inadvisable to give such information to a patient, the information is provided to a person designated by the patient or to a legally authorized person.

Patients are given the opportunity to participate in decisions involving their healthcare, except when such participation is contraindicated for medical reasons.

Patients are provided information about treatment alternatives and will be advised of the advantages and disadvantages of each.

Patients have the right to refuse to participate in experimental research.

Patients have the right to know in advance the type and expected cost of treatment.

Patients have the right to know that the physician that refers you to the Endoscopy Center may have ownership interest in this facility. You are free to choose another facility in which to receive services. You were informed both in writing and verbally prior to the date of service.

Patients have the right to be informed of the professional rules, laws and ethics that govern the organization and its employees.

Patients and families have the right to express grievances and suggestions to the organization. Every effort will be made to follow up on all grievances and suggestions. Patient care and satisfaction are very important to our entire staff.

PATIENT RESPONSIBILITY AND CONDUCT

To provide healthcare providers with information about any past illness, hospitalizations, medications and other health matters.

To ask questions if they do not understand instructions or explanations given by the healthcare providers and/or staff.

To keep appointments as scheduled and to telephone the office in case of a cancellation.

To follow healthcare providers instructions and plan of treatment.

To make payments for services rendered if a balance remains after insurance pays.

To discuss consequences of refusing treatment or not adhering to plan of treatment or leaving Against Medical Advice (AMA) with their physician.

To refuse to participate in experimental research, if that is their desire.

To refuse to allow care from a student or trainee, if that is their desire.

NOTICE

Anyone having concerns about the quality of care provided in this organization may report these concerns to the organization's management, the Missouri Department of Health and Senior Services, the Joint Commission or Medicare. A quality Incident Report Form is available upon request. You may choose to report anonymously or provide your name and contact information.
