SPECIAL INSTRUCTIONS

**Patient with an implantable defibrillator and/or pacemaker:** Please call us at least five (5) days before the procedure for instructions.

If you have had a cardiac stent placed in the last 12 months or if you are taking an anti-platelet medication with aspirin, please contact our office at 314-529-4900 to discuss.

**Coumadin, Jantoven (warfarin), Arixtra (fondaparinux):** Call your prescribing physician and ask if you can safely stop this medication **four (4) days** before the procedure. If your doctor tells you that you cannot stop the Coumadin, then please call us immediately to make us aware of this. We will then discuss with you the various options available.

If you take **Eliquis (apixaban), Fragmin (dalteparin), Iprivask (desirudin), Lovenox (enoxaparin) Pradaxa (dabigatran) or Xarelto (rivaroxaban):** Call your prescribing physician and ask if you can safely stop these medications **2 days** before your procedure. If your doctor tells you that you cannot stop these medications, please call us immediately to make us aware of this. We will then discuss with you the various options available.

**Plavix (clopidogrel), Brilinta (ticagrelor), or Effient (prasugrel):** If you are taking any of these medications **WITH Aspirin**, please call our office at 314-529-4900 to discuss. If you are taking any of these 3 medications **without Aspirin**, it is not necessary to stop them prior to your procedure.

Iron: Stop iron **four (4) days** before the procedure. Iron can make preparation difficult and result in a poorly cleaned colon.

**Antibiotics for procedures:** Recent publication from both the American Heart Association and American Society for Gastrointestinal Endoscopy state that antibiotics are not necessary for routine endoscopic procedures.

**Insulin:** Call your prescribing physician at least five (5) days before the procedure and ask for instructions.

**Herbal Medications:** It is best to stop any herbal remedies **five (5) days** before the procedure as many of them can thin the blood and increase risk of bleeding during the procedure.

**Additional Information:**
Approximately 3 business days prior to your procedure, you will be receiving a phone call reminding you of your appointment. If you are not home, a message will be left on your answering machine/voicemail. Unless you want to cancel or reschedule your appointment, it is not necessary to call the office to confirm. We will assume you are keeping your scheduled appointment unless we hear from you.

**We also suggest that you contact your insurance to verify coverage for colonoscopy.** Some insurance plans cover colonoscopy for colon cancer screening or routine/preventative care. Other plans only cover colonoscopy if you are having symptoms or they may say it’s covered only if “medically necessary”. There are many different insurance companies and each individual plan is different.

You may visit our website (**www.gatewaygi.com**) for more detailed information regarding the physician you will be seeing and other services offered.

FINANCIAL DISCLOSURE

Dear Patient:

We would like to take this opportunity to welcome you, and to let you know that we are committed to providing you with the best possible care. Please take a few minutes to read this important information regarding our financial policies. We will gladly discuss your proposed treatment and answer any questions you have related to your charges:

1. PHYSICIAN’S PROFESSIONAL CHARGE
   We will bill this charge for you. This billing is for the physician’s professional services that are provided during your procedure. **If you are a new patient to our office there will be a separate consultation fee.**

2. FACILITY CHARGE
   There will also be a facility bill for the use of the facility in which your procedure is being performed. If the procedure requires additional services, the billing will be increased depending on the added requirement. The facility will bill these charges separately to you.

3. LABORATORY AND PATHOLOGY CHARGE
   If you have a biopsy taken, or polyps removed, you will receive a bill from the laboratory that processes your biopsy.

4. ANESTHESIA CHARGE
   If your procedure utilizes the services of the anesthesia provider, this professional charge will be billed separately to you. This billing is for the anesthesia provider’s professional services that are provided during your procedure.

**Payments made to the facility on the day of the service are credited towards the facility charge only.**

If you have insurance, we will file a claim for you. Please understand that your insurance is a contract between you and your insurance company and that complete payment to us is ultimately your responsibility. Under certain circumstances some insurance carriers may not always cover or may deny payment for services provided. Our office will bill your insurance first. After your insurance processes the claim, we will forward a statement to you if there is any patient responsibility. Please remit payment in a timely fashion or call the office to make payment arrangements.

If you belong to an insurance plan, we will follow guidelines set forth in those plans. Please be sure to contact your primary care physician if your insurance requires a referral. Services cannot be rendered if proper authorization has not been given. We DO participate in Medicare.

If you do not have insurance, payment for services is due at the time services are rendered unless payment arrangements have been approved in advance. To assist you, we accept checks, MasterCard, Visa, and Discover.

We recognize that temporary financial problems may affect timely payment of your account. If such problems arise, we encourage you to contact us promptly for assistance in the management of your account. We are willing to work with you, but we need you to communicate with us. We do use outside agencies as a means of collections should we deem it necessary.

If you have any questions about the above information or any uncertainty regarding insurance coverage, don't hesitate to ask us. We are here to help you. You can reach our office at 314-529-4900.
DISCLOSURE AND CONSENT FOR MEDICAL AND SURGICAL PROCEDURES

Prior to your procedure, you will be asked to sign a consent form such as the one below or one similar to it. Please read this, and if you have any questions, ask your physician prior to undergoing your procedure.

TO THE PATIENT: You have the right, as a patient, to be informed about your condition and the recommended surgical, medical, or diagnostic procedure to be used so that you may make the decision whether or not to undergo the procedure after knowing the risks and hazards involved. This disclosure is not meant to scare or alarm you; it is simply an effort to make you better informed, so you may give or withhold your consent to the procedure.

I (we) voluntarily request

☐ David Benage, MD  ☐ Jeffrey Kreikemeier, MD  ☐ Brian McMorrow, MD  ☐ Jeffrey Mathews, MD
☐ Richard Riegel, MD  ☐ Jonathan Seccombe, MD  ☐ Andrew Su, MD  ☐ Fred Williams, MD

as my physician, and such associates, technical assistants, and other health care providers as he/she may deem necessary.

I (we) understand that the following surgical, medical, and/or diagnostic procedure(s) planned for me and I (we) voluntarily consent and authorize these procedures:

☐ Esophagastroduodenoscopy with possible biopsy and/or polypectomy and/or dilation
☐ Colonoscopy with possible biopsy and/or polypectomy and/or dilation
☐ Flexible Sigmoidoscopy with possible biopsy and/or polypectomy and/or dilation
☐ Other: ____________________________________________________________

I (we) understand that my physician may discover other or different conditions which may require additional or different procedures than those planned. I (we) authorize my physician, and such associated, technical assistants and other health care providers to perform such other procedures which are advisable in their professional judgment.

I (we) understand that no warranty, guarantee or assurance has been made to me as to the results of the procedure and that it may not cure my condition. Just as there may be risks and hazards in continuing my present condition without treatment, there are also risks, and hazards related to the performance of the surgical, medical, and/or diagnostic procedures planned for me. I (we) realize that common to surgical, medical, and/or diagnostic procedures is the potential for infection, blood clots, in veins and lungs, hemorrhage, allergic reactions, and even death. I (we) also realize that the following risks and hazards may occur in connection with this particular procedure: drug reaction, bleeding, perforation, missed pathology, infection, cautery burn, cardiac arrhythmia, and aspiration.

I (we) understand that anesthesia involves additional risks and hazards, but I (we) request the use of anesthesia for the relief and protection from pain during the planned and additional procedures. I (we) realize the anesthesia may have to be charged possibly without explanation to me (us).

I (we) understand that certain complications may result from the use of any anesthetics including respiratory problems, drug reactions, paralysis, brain damage and even death.

I (we) have been given an opportunity to ask questions about my condition, alternative forms of anesthesia and treatment, risks of nontreatment, the procedure to be used, and the risks and hazards involved, and I (we) believe that I (we) have sufficient information to give this informed consent.

I (we) certify this form has been fully explained to me, that I (we) have read it or have had it read to me, that the blank spaces have been filled in and that I understand its contents.
